

# ***SUPERIOR SERVICE. SERIOUS SAVINGS.***

qdata offers a variety of services to help you reduce telecommunication costs and improve efficiency. We work closely with major Canadian telecommunications companies, including Rogers, Fido, Bell and Telus. So you can remain with your current provider, or choose the one that's best for you.

## **PHONE PACKAGE OPTIMIZATION**

Our three-step process determines how business and consumer clients can enjoy more features and benefits at a considerably lower monthly cost.

## **FREE ANALYSIS**

We review up to three months of cell phone statements to determine average usage and spending.

## **PROPOSAL**

We develop a customized proposal outlining potential savings and features, so that you can compare what we offer with your current arrangement. If you accept our proposal, you simply authorize qdata to make the necessary changes to your account.

## **IMPLEMENTATION**

We implement the proposed package with your service provider to lower your costs and improve your plan's features.

## **WHAT WE CHARGE**

Our payment consists of a small percentage of the significant savings we deliver on your monthly bill.

## **MANAGEMENT OF SERVICES**

### **MONTHLY BILL AUDITING**

qdata monitors your monthly usage and spending to avoid costly mistakes before they happen, and eliminate time-consuming calls to your provider's customer service line. Questionable billing will be queried and any monies owing to you will be refunded. We'll also ensure that you continue to receive service at the best-available price point.

### **INTERNATIONAL TRAVEL MANAGEMENT**

If long-distance and roaming charges are eating into your profits, let qdata manage cell phone service for employees on the road. We have the expertise to ensure you're obtaining the plans and features that will maximize your business efficiency. You'll pay the minimum for mobile travel communications in North America or overseas.

## **BUYER GUIDANCE**

Confused by the variety of plans and options available? No wonder. Without an in-depth understanding of what various service providers offer and how they bring new products and plans to market, it's hard to know what will work for you, your family or your company. Once qdata identifies what your needs are, we will obtain the best package for you.
